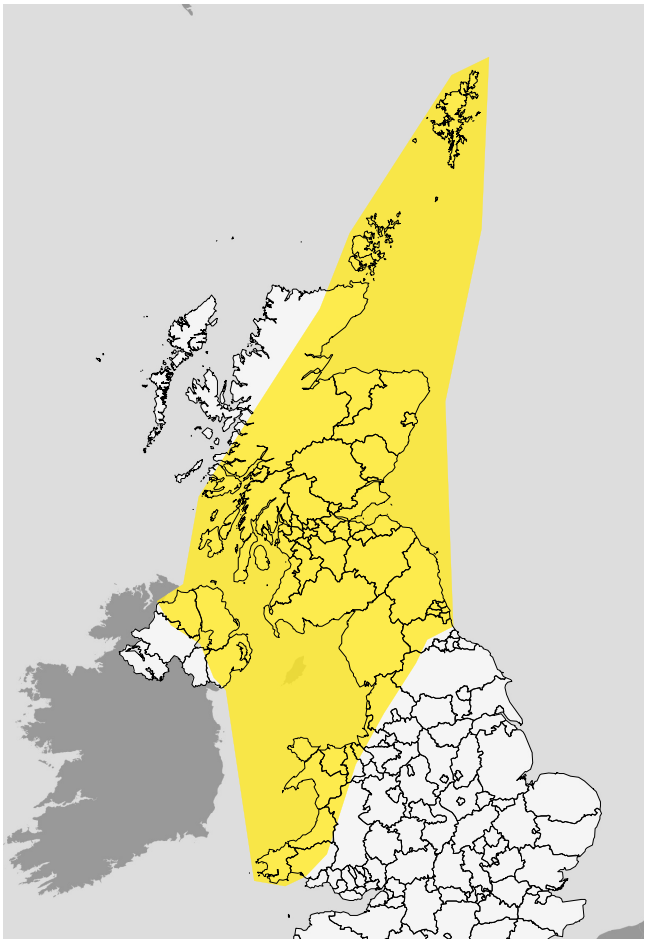
Yellow warning
Wind

Between
00:00 Wed 5 Oct 2022 and
11:00 Wed 5 Oct 2022



A small chance of disruption from strong winds on Wednesday

What to expect

- There is a small chance of injuries and danger to life from flying debris
- There is a slight chance of some damage to buildings, such as tiles blown from roofs
- There is a small chance of longer journey times or cancellations as road, rail, air and ferry services are affected
- There is a small chance that some roads and bridges could close
- There is a slight chance that power cuts may occur, with the potential to affect other services, such as mobile phone coverage
- There is a small chance that injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties

Yellow warning
Wind

Between
00:00 Wed 5 Oct 2022 and
11:00 Wed 5 Oct 2022

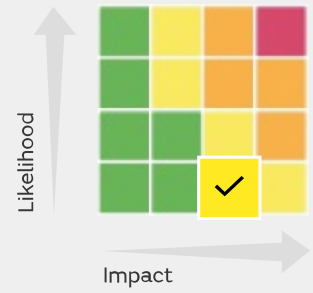
Further details

There is a chance of a deep low pressure system bringing gusts of 70 to 80 mph to some northern parts of the UK on Wednesday. Should this develop disruption would be expected.

However, the most likely scenario is for gusts of 55 to 65 mph within parts of the warning area, most likely areas adjacent to the northern Irish Sea and parts of eastern Scotland, bringing some more localised impacts. In addition, heavy rain may prove an additional hazard particularly over southwest Scotland.

Reason for update

Warning area has been reduced away from parts of Northern Ireland and northwest Scotland with an earlier end time. There still remains a small chance of notably stronger winds in the warning area though most likely is a windy period typical for the time of year.



Very low likelihood of medium impacts
